

GRZEGORZ JEWUSIAK

JUNIOR JAVA DEVELOPER

+48 511 295 790 | grzegorz@jewusiak.pl | jewusiak.pl | 25/02/2003

[in /jewusiak](https://www.linkedin.com/company/jewusiak) [G /jewusiak](https://github.com/jewusiak)

I possess a diverse range of skills that make me a good team player, on top of that, I possess a natural creativity that enables me to approach complex problems from a unique perspective, resulting in innovative solutions. Finally, I am a persistent problem-solver, never stopping until a solution is found. My tenacity, creativity, and teamwork skills make me a valuable addition to any software development team.

SKILLS

- **Java**
- **Spring Boot**
- **SQL**
- **Git**
- Maven
- JUnit
- Docker
- Flutter (+Dart basics)
- JIRA
- Agile (SCRUM)
- Networking (basics)
- **English (C1)**

EDUCATION

APPLIED COMPUTER SCIENCE - BAsC / BEng

Warsaw University of Technology | 2021 - 2025 | avg. 4.6

I am working towards a Computer Science degree, consequently I get to try a lot of new technologies, frameworks and team & project management techniques (C, Java, Python, SQL, SCRUM, UML).

EXPERIENCE

ONLINE SELLER / DROPSHIPPING

Bracket Grzegorz Jewusiak | June - September 2021

I sold various products through e-commerce sites. I had an opportunity to learn how to organise efficient workflow, negotiate business matters, work with clients and cope with difficult situations.

PROJECTS

See more on my website
jewusiak.pl

LAB INVENTORY APP

JAVA, SPRING, MAVEN, DOCKER, SQL, FLUTTER

REST API backend allows registered users to manage state, location, documentation of lab equipment. Keeps track of event history (breakdowns, repairs etc.). Public and users-only endpoints. Frontend is a Flutter mobile app.

LUNCH-SEARCHING APP

JAVA, SPRING, MAVEN, DOCKER, SQL, FLUTTER

REST API for a lunch-searching app - endpoints dedicated to users, restaurateurs and admins. Restaurateurs can create restaurant profiles, plan ahead lunch offers, Users can search through the restaurants, and lunch offers. Integration with a mobile app written in Flutter.

GRAFEX - GRAPH TOOL

JAVA, JAVAFX, ALGORITHMS

Grafex is a desktop app which features graph generation tool, Dijkstra and BFS algorithms. I was responsible for developing backend part of the project (grafex package).
