OBJECTIVE

Software Engineer with 2 years of experience in Technology Consulting - Java and scalable microservices.

EDUCATION

Bachelor of Engineering in Computer Science, Warsaw University of Technology

2021 - 2025

Relevant Coursework: Algorithms and Data Structures, Software Architecture,

Summa Cum Laude

Parallel and Distributed Programming and Fundamentals of Data Science.

SKILLS

Programming	Java, Spring Boot, Camunda Platform, Hibernate
Infrastructural	Docker, Kubernetes, Github Actions, Linux Networking
Others	Kafka, RabbitMQ, Elasticsearch, PostgreSQL, MySQL, REST, Linux
Business	BPMN, Basic knowledge of Financial Services

EXPERIENCE

Software Engineer / Technology Consulting Analyst

since Oct 2023

Accenture

Warsaw, Poland

- Worked on a currency exchange platform for an international bank, handling **over 100 transactions/hour**,
- Developed **core functionalities** - booking, settlement, and communication with existing services,
- Led a series of **10 learning sessions on BPMN and Camunda Platform** for a group of fellow employees.

Technical Support

since Feb 2023

Multiple individuals

Remotely

- Developed software that integrates websites, and online player tools with game servers,
- Created management, delivery, logistics and sales solutions for a clothing brand, driving sales 3x up,
- Created warehouse planning tools for a logistics company, which **reduced delivery planning time by 500%**.

PROJECTS

Lunch-searching App. Built a scalable backend service in Java 21 and Spring Boot 3 for managing restaurant menus and user content. Implemented REST APIs with **role-based access control and full-text search**, using Hibernate Search and Elasticsearch for high-performance queries. Source code: github.com

Personal Banking App. Developed a secure banking API with Spring Boot, featuring **robust authentication, session management, database encryption, and brute-force protection**. Utilized Spring Security and JPA to ensure a scalable and efficient application Source code: github.com

Lab Inventory App. REST API backend allows registered users to manage state, location, documentation of lab equipment. Keeps track of event history (breakdowns, repairs etc.). Public and users-only endpoints. Frontend is a Flutter mobile app. Source code: github.com

EXTRA-CURRICULAR ACTIVITIES

- Member of an international organisation "Rotaract" which helps local communities, helps youth build international connections and leadership skills.

LEADERSHIP

- Club Secretary (2024-2025) and Club Vice President (2025-2026) of "Rotaract" Club Warsaw Victory,
- Assistant Secretary in Polish District 2231 of "Rotaract" - overseeing organisational matters for roughly **90 members** in 9 clubs.

CONSENT

I agree to the processing of personal data provided in this document for the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
